NB: in the offline form duplicate below for each member of the user group.

<b>A.3 Scientific excellence of the user group</b>
<b>Are there any references/publications available in the domain of the application?</b>
<input type="checkbox"/> Yes (if selected, go directly to section A.3.1) <input type="checkbox"/> No (if selected, go directly to section A.3.2)
<b>A.3.1 List 5 publications of the user group in the domain of the application</b>
<ul style="list-style-type: none"> <li>•</li> <li>•</li> <li>•</li> <li>•</li> <li>•</li> </ul>

**A.3.2 Please upload short CVs (or attach in case offline form is used)**

**A.4 Information on the requested TransNational Access (Project)**

<b>Title &amp; Acronym</b>	
<b>Scientific field(s) and cross-disciplinarity (if any)</b>	

**Main category of requested service/s:** *(Please pay attention when selecting the category of service, as the form is different based on this selection. Anyway, if halfway you realize that another category applies better, you can always go back to this section and change the preference. Whenever you go back and then forward again, the form automatically saves the answers so that you don't have to fill them in again. That works until the final submission of the form)*

- Technical services** (i.e., calibrations, QC, etc., possibly involving also some ancillary training)
- Research/innovation services** for the creation of new knowledge, products, methods and systems (possibly involving also some ancillary training)
- Training services only** (i.e., summer/winter schools, thematic courses, modules, etc.)

**Is there a facility similar to one/all those you wish to utilize in your country?**       Yes     No

**Have you discussed the proposal with the access provider/s?**       Yes     No

**Type of access requested**

**Physical access** (i.e., hands-on access of user at facility)

**Remote access** (i.e., the user does not physically visit the facility)

**Combination of Physical and Remote access**

## PART B – DETAILED INFORMATION for Research/Innovation services

### B.1 Description of Work

**Scientific objectives** [including background/state of the art, rationale, reasons for choosing the particular facility/ies, interest to the scientific community, relevance and, in case, any cross-disciplinary aspects (integration of disciplines outside the atmospheric domain). Max 3000 characters]

**Experimental method and work plan** [please describe in particular working plans for the combination of remote and physical access (if requested and applicable) as well as plans for simultaneous, sequential or hybrid access to multiple facilities; max 1300 characters]

**Please specify if the access also involves some training to the participating user group and provide details** (describe any additional training requirements. Training can be organised remotely)

**Innovation Potential/Impact** [Based on what is applicable, please describe: i) how the proposed work may contribute to new scientific, technological or scholarly horizons enabling transdisciplinary developments; OR ii) how the proposed work identifies and/or makes progress on new/existing instruments, methodologies, techniques, etc.; OR iii) potential industrial applications, prototype testing. Max 1500 characters]

Are you a recurrent user of the service?  Yes  No

**B.2 Further assistance needed from / at the facility during access (onsite support is offered free of charge but details need to be provided)**

<b>Administrative / logistic:</b>	
<b>Technological / scientific</b> ( for installation of an instrument, please provide: size, weight, power connection, necessary adapters, need of inlet or other equipment)	
<b>Training:</b>	
<b>Other:</b>	

**B.3 Dissemination plan**

**B.3.1 Data management**

*It is mandatory that data from measurements at ATMO-ACCESS facilities will be provided for long-term storage and access (exceptions may apply in case of industrial/commercial use or on justified case-by-case basis).*

**If additional instrument(s) are deployed during the project, please include a list of instruments you plan to bring to the site during the access: (expand Table if necessary)**

<b>Additional instrument(s)</b>	<b>Resulting variable(s)</b>	<b>Principle investigator</b> (Name, E-mail)

**All measurement data resulting from your access to the ATMO-ACCESS facility are to be provided for long-term storage and open access, though exceptions may apply. Are there any specific reasons for you not to disseminate results?**

Yes  No.

**NB: if YES, go directly to Section B.3.3**

**If NO, go directly to Section B.3.2**

### B.3.2 Availability and use of results

**Please describe in more details the data resulting from the access including plans to make it available in repository**

**Plans for publication / report in conferences:**

### B.3.3 Reasons for not disseminating results

**Please justify the reasons why measurement data resulting from the access are not to be made available**

**Please, explain the reasons why results are not to be disseminated (included in publications or presented at conferences)**

### B.4 Estimated user's travel & subsistence costs, in EUR

Limited financial support is available upon request and is only intended to facilitate TNA but cannot guarantee full reimbursement of travel expenses of the participating users. Users are encouraged to use any other funding available to them (i.e., from other projects) to cover the remaining fraction of T&S costs. Reimbursement should be based on the most economical rates available.

**NB: only for physical access or combination remote / physical**

**Travel costs per person** (please indicate the cost of travel per person (A), the number of persons travelling (B) and the total amount of travel costs (AB). For example: € 500 (A, travel per person) X 3 (B, number of persons travelling) = € 1500 (AB, total estimated travel costs)

**Daily subsistence costs per person** (please indicate the cost of daily subsistence per person (A), the total number of travel days counting all the persons travelling (B), and the total amount of subsistence costs (AB). For example: € 100 (A, daily subsistence per person) X 9 (B = 3 days x 3 persons travelling) = € 900 (AB, total estimated subsistence costs)

**Percentage of co-financing for Travel & Subsistence costs requested to ATMO-ACCESS**

### B.5 Additional information

Do you agree to comply with any applicable national legislations and local health and safety regulations at the research facility concerned?

Yes  No

Do you confirm that in case of physical access each member of the user group has appropriate personal insurance during the access?

Yes  No

Do you agree to agree to participate in the TNA carbon footprint assessment?

Yes  No

(providing relevant information about travel mode and/or online activities to evaluate the environmental impact of their TNA activity)

**B.6. Comments** *(optional)*
