TNA Application Form

Training services
(only for preview)

The application form is built with conditional logic and includes some questions and fields that only show based on the answer given to specific questions.

Welcome to the ATMO-ACCESS TransNational Access proposal online submission form. Before filling out the form, don't forget to check the application guidelines available on the ATMO-ACCESS website as well as the previews of the form.

The ATMO-ACCESS project - through the CNR, acting as the Work Package Leader for TransNational Access - needs to collect some basic user personal information and data for the means of processing applications for TNA under the ATMO-ACCESS project TransNational Access calls.

The ATMO-ACCESS will gather and securely store your data. Access will be restricted to required personnel, relevant TNA providers and selected qualified external evaluators, who will help determine successful applicants. Answers, informed consent and data will be stored at CNR, Italy, for the duration of this project, which should last 4 years. Your data will not be used for any other purpose than your TNA application and related reporting activities.
